UFO Sighting, Meridian, Idaho

Hq USAF SAFOICC (Mrs Hunt)

The 26 October 1963 Meridian, Idaho sighting is carried in Air Force files as "unidentified." The sighting has the normal characteristics of a helicopter observation. We have checked the FAA, military, and civilian helicopter units which might operate in the Meridian area and have not been able to find an organization operating a helicopter during this date and time. The following description was furnished by the witness:

- a. Object was circular from directly below and football shaped when viewed from the side.
- b. Object emitted a "deep, pulsating, loud, extremely irritating sound."
- c. Object hovered four and one half minutes over observers, gained altitude (amount not estimated), flew South for one minute, changed heading to Southwest, flew Southwest for one half minute, and disappeared behind houses and trees.

Total time of observation was six minutes. Observer did not estimate size or speed of object in his official report to the Air Force. Information was received through normal teletype channels; therefore, FTD Form 164 was not used in this case.

[REDACTED]

24 OCT 63
MERIDIAN, IDAHO

CLOSE SIGHTING IN IDAHO: At least four people in Meridian, Idaho, saw a UFO at very close range on the evening of October 24th. The witnesses included Mrs. [REDACTED] and her two sons, one of whom made the following report:

"My brother [REDACTED] heard a noise over the house at 8:45 p.m. It faded away, but then came closer again and hovered over the house. My mother, Russell, and I looked outside. It was dark out, but as nearly as we could see, the object was perfectly round and about 35 feet in diameter. A red light on its side flashed on once and then went off quickly. It made a very deep humming noise. It just hung about eight feet above our willow tree, very low and motionless, and then slowly moved on after about five minutes. We were all pretty scared."

The family, as well as the F.A.A., discounted the possibility that the craft could have been a helicopter.
